

Hart Meadows (2575 W) Corridor

BRIEF DESCRIPTION: This north-south segment connects on the north with 2575 W in the Jackson Acres Subdivision, proceeds southward through the Hart Subdivision, and continues on 2575 W in the Farr West Meadows Subdivision until it reaches 2700 N. When Phase 1 of the Hart Subdivision is completed there will be vehicular street parking and sidewalks on both sides of 2575 W and a marked bicycle lane on one side.

RECOMMENDED CORRIDOR TYPE: Category 3: Marked Shared Road Bikeway

RECOMMENDED CORRIDOR USES: Bicycles shared with vehicles, pedestrians on sidewalks

CORRIDOR CONNECTIONS: Jackson Acres (2575 W), Sugar Hart (2950 N), 2700 N (School Zone), Mia Meadows

AREAS OF CONCERN A bicycle lane on only one side of 2575 W creates an undesirable risk. The planned widening of 2575 W in the Jackson Acres Subdivision will include bicycle lanes on both sides of the street. To facilitate the flow and safety of bicycle traffic after the widening, on-street parking along 2575 W in the Hart and Farr West Meadows Subdivisions will be eliminated to accommodate bicycle lanes on both sides of the street.

LEVEL OF DIFFICULTY: Easy

APPROXIMATE CORRIDOR LENGTH: 0.8 mile

RESPONSIBLE ENTITIES: Farr West City

EXISTING CONDITIONS: country road dead end, undeveloped land, existing subdivision with asphalt road and sidewalks
