

Farr West Drive Corridor

Potential Shared-Road Cross-Section

BRIEF DESCRIPTION: This corridor follows Farr West Drive from SR 126 at Farr West City Park travels eastward over I-15 via an existing pedestrian bridge, continues east approximately 0.5 mile and then continues southward to its junction with Harrisville Road. Land use along the route is a mixture of residential (52 homes) and agriculture

RECOMMENDED CORRIDOR TYPE:
Category 3 - **shared** roadway without a sidewalk

RECOMMENDED CORRIDOR USES:
Pedestrians, Bicycles, shared with vehicles.

CORRIDOR CONNECTIONS: Connects on the west end to a pedestrian walkway across I-15 and on the south end to Harrisville Road where a crossing is needed.

AREAS OF CONCERN: The street is fairly narrow so caution is a must for all users, some widening and markings should be considered.

LEVEL OF DIFFICULTY: Easy

APPROXIMATE CORRIDOR LENGTH:
3800 ft. / 0.7 miles

RESPONSIBLE ENTITIES: Farr West

EXISTING CONDITIONS: Asphalt paved road without curb and gutter
